

## TAKING A CLOSER LOOK:

### GOD'S DESIGN OF THE MAN'S BODY

1. **Penis** – Derives from the Latin word “marem” from which also is derived the English word:

- \_\_\_\_\_.
- a. The Hebrew word for male organ is “Shophkah” meaning a pipe for pouring forth. 3 purposes: Expelling Urine (waste), Releasing Semen (reproduction), Sexual Pleasure (favor). The Hebrew term signifies the pouring forth of \_\_\_\_\_ testifying to the powers of generations, pouring forth the seed.
  
  - b. The sign of Abram's fulfilment of his part of the covenant was \_\_\_\_\_ the removal of the foreskin. This also signified God's covenant and contractual relationship with Abraham and his descendants in Gen 17, following God's promise of too many offspring to count in Gen 15. God's literal promise to Abram in Gen 12:2-3 was,  
  
*“I will make you into a great nation, and I will bless you; I will make your name great, and you will be a blessing. I will bless those who bless you, and whoever curses you I will curse; and all peoples on earth will be blessed through you.”*
  
  - c. In Deuteronomy 29 and 30, Moses renews the Israelites' covenant with the Lord. They were to carefully (29:9), not casually, follow the terms of the covenant in order to \_\_\_\_\_. The covenant included blessings for keeping it and curses for breaking it.
  
  - d. Moses exhorted the Israelites to choose life so that they and their \_\_\_\_\_ would live, that they would love God, listen to His voice, and hold fast to Him. (Deuteronomy 30:19-20)
  - e. The testimony that must pour forth from godly men is that God grants His favor through the reproduction of \_\_\_\_\_ within the covenant of marriage.

GOD’S DESIGN OF THE HUMAN BODY

2. **Testicles** – Physically, the testicles produce and discharge semen. They are located in the scrotum, the pouch of skin that contains them. The word derives from the Latin word “testis” which means \_\_\_\_\_. Same root word for: Testament, testimony, test, testify, the Word, a man’s word – all related.
  - a. Romans used it figuratively to mean testicle – the testicle was witness to a man’s: \_\_\_\_\_.
  - b. The spiritual meaning is that the very design of the male body is \_\_\_\_\_ to the truth of God’s Word, and His command to pro-create in Genesis 1.
  - c. The testicles can represent the godly man as the \_\_\_\_\_ who pours forth the testimony of the powers and blessing of descendants.
  - d. The man can stand as a \_\_\_\_\_ in the dispute between God’s Word and the world’s ways, testifying to truth. Every young man needs to be taught these things, learning the deeper meaning behind this part of their body.
  - e. Dr. Taylor Marshall, Catholic Theologian discusses Abraham’s instruction to his servant who was to find a bride for Isaac. (Genesis 24:2-9) The Abrahamic covenant was powerful sign of the powers of a generation in bringing about redemption in God’s economy. Abrahamic Covenant is sealed upon the genitals of Abraham and his descendants.<sup>2</sup>
3. **Semen** – Derives from the Latin word for plant or \_\_\_\_\_, signifying seed of plants, animals, or men; race, inborn characteristic; posterity, offspring; or figuratively as origin, principle, or cause.<sup>3</sup>
  - a. Figuratively, semen can be seen as the principle, cause, or origin of a man’s posterity, progeny, or \_\_\_\_\_.
  - b. The same Hebrew word “zera” and Greek word is “spérma” means a sowing, seed, or offspring and is translated as child, grandchildren, \_\_\_\_\_, fertile, grain, family, offspring, semen, race, and more.
  - c. The purpose of semen is to transport sperm to the woman’s egg for the purpose of: \_\_\_\_\_. Without semen to propel it, the sperm would just swim in circles.
  - d. **Seminal vesicles** are a pair of glands along the back of bladder that produce 70% of the seminal fluid. The **prostate**, the gland surrounding the neck of the bladder and urethra, produces about 25%, and **bulbourethral glands** produce the rest.
    - i. **Semen** contains sugars, proteins, vitamins and minerals. Hormones in Semen:
      - Androgens –
      - Testosterone –
      - Prostaglandins –

GOD’S DESIGN OF THE HUMAN BODY

- ii. **Sperm** (male reproductive cells) – Continually produced by the **testes** and is stored in the **epididymis**.
  - Each ejaculation releases between 20 million to 300 million sperm, though the sperm make up only \_\_\_\_\_ of the semen expelled.
  - Sperm that make it into a vagina can live up to 5 days. They live only up to a few minutes elsewhere. A cold surface or hot water kills them.
  - Men make sperm as long as they are alive, but the quality and motility decline with age.
  - Men pass their Y \_\_\_\_\_ to their sons (not their daughters), and this can be traced back to Adam.
- e. Semen is needed to create life. Planted seed grows into a plant. The purpose of semen is to:  
\_\_\_\_\_
- f. You go to seminars and idea seeds are planted in your mind. People go to seminaries where seeds of biblical truth are planted in minds and hearts, and you procreate spiritually.
